

Celebrating the

Forbes is a community of entrepreneurs and capitalists: people with the vision and drive to succeed in today's challenging business arena. That is why it is so appropriate that Forbes presents the Forbes Enterprise Awards, sponsored by Verizon.

Forbes[®] Enterprise Awards

The Forbes Enterprise Awards recognize outstanding small businesses for their visionary practices and achievements. These are the up-and-coming companies that drive the economy forward and provide a strong base for future growth. These entrepreneurs represent what is best about business, demonstrating their accomplishments in key areas including product or service innovation, customer service, community involvement, marketing, and employee development and support.

The 2006 Forbes Enterprise Awards winners were chosen by a panel of business experts and saluted in an awards ceremony and gala reception on February 5, 2007.
